A TRUE REFORMER.

After all Mr. Hayes is doing the country a great service—a very great service. He is using all the influence and patronage at his command to squelch old Mr. Evans, and he is succeeding. Only the other day, Evans proposed to write a letter to Governor Stone, of Mississippi, why Evans, who is only secretary of state, should write a letter to the governor of Mississippi will always remain one of the mysteries. We can all guess the purport. The first paragraph would have made seventy-two columns of the New York Tribune, and the other nine paragraphs in proportion. Since the secretary coached Beecher safely through his Brooklyn basileum, he has had a vague idea that he is coaching everybody with whom he comes in contact. We are very glad that Mr. Hayes has learned him a lesson in this respect. Evans has been informed that his principal duty is to issue passports to American citizens who desire to travel abroad, and it is probable that we shall hereafter hear very little of him—albeit if the passports he issues are clothed in his usual verbiage, Americans who are so unfortunate as to be compelled to apply to him for those documents will have to purchase special trunks for their accommodation. If Mr. Hayes has really squelched Evans in the manner set forth in our telegrams he deserves not only the cordial congratulations but the hearty recognition of every lover of his country. In a matter of this kind, we know neither north, south, east or west. There is something substantial in this sort of news.

BLAINE is shrieking for a solid north. This is a good idea. It won't be long before it will be solidly democratic, and then Blaine will have to go to Milligan for consolation. All that the north has to do in a political emergency like this is to join what Mr. Hayes would doubtless call the "solid south."

It is stated that Senator Asbury, of White county, recently took out of his gold mines four or five nuggets of gold averaging over ten penny weights each. The Gainesville Southern says that with three or four hands he is already taking out over \$100 a week.

PRESIDENT MACMAHON has sent an autograph letter to the pope asking him to exercise his benevolence towards France in her present critical condition that he has always manifested.

Our compositor (with a Literary Turn) made us say yesterday that Mr. Erastus Brooks would shortly "enter" from the editorial management of the New York Evening Post.

The arms of the Venus of Milo have been found within twenty feet of where the statue itself was found in 1820. General Merideth Read writes that arms are exquisitely modeled.

COLONEL P. F. LAWSON, of Gainesville, Ga., is an applicant for United States marshal for this state and is strongly endorsed. He will make a capital officer, and give satisfaction if appointed.

The fact that the Bonapartists get the lion's share of the appointments under the new French ministry is creating considerable uneasiness and suspicion among the legitimates.

THE CITY of Brussels has arrived safely at Liverpool. The pilgrims will proceed directly to Rome.

It is stated that President MacMahon will not, under any contingency, resign his position.

It seems certain that Servia will be compelled to declare war against Turkey.

WEEDING THE WORTHLESS.

The Entire Charleston Delegation to be sent Home.

NEW YORK, May 29.—A Herald special from Columbia, S.C., says: The committee on privilege and elections in the house reported adversely on Saturday upon a bill to extend the franchise to all citizens of seventeen years, including Speaker Mackay, to seats in the general assembly. The grounds of the report is, that there was so much fraud and intimidation in that county to vitiate the election. The evidence upon this point was almost wholly derived from the report of the congressional sub-committee which visited Charleston last fall.

—FAIR BACKSLIDING.—NEW YORK, May 29.—In the "Meadow," on the site of the Pennsylvania railroad, just beyond the Hackensack river, this morning, a freight train backed into a hand car; from which four men were distributing ties. Themselves Hogan and Phillip Goodman were killed. Edward Henry lost both legs and Patrick Donelly had a broken hip. It is thought both will die.

—ALL NERVOUS, EXHAUSTING, and pain full disease yield to the curative in influences of Pultenmacher's Electric Belts and Bands. They are safe, simple, and effective, and can be easily applied by the patient himself. Book, with full particulars, mailed free. Address PULLENMACHER, GALVANIC CO., Cincinnati, Ohio.

ATLANTA, GA. WEDNESDAY MORNING, MAY 30, 1877.

NO. 309

THE ROYAL FEES.

LETTER OF EX-GOV. SMITH TO GOV. A. H. COQUITZ.

In Which Certain Differences of Opinion are Alluded to.

And the Question is Raised as to Whether Gov. Smith Ever Made a Contract with Col. Alston.

The Circumstances Under Which the Matter Was First Mooted

ATLANTA, GA., May 20, 1877.

His Excellency A. H. Colquitt, Atlanta, Georgia.—Sir.—A report has appeared in the newspaper to the effect that you recently paid to Messrs. Alston and Garlington, by virtue of a contract made while I was governor of the state, the sum of \$10,000, and that you have in cold writing the claim on which you lately received a large amount of money at Washington. I have reason to believe that, in conversation with members of the press and others, you have sought to vindicate yourself, by attempting to give the impression that, though you would not have paid so large a sum as the public money to the guineamen named.

You have declined to correspond with me by letter on the subject mentioned, and have informed me that you feel "responsible" to the people of Georgia alone" for your actions. You are, however, fully aware that, in cold writing the claim on which you lately received a large amount of money at Washington.

My memory is entirely at fault if I ever knew or had so much as ever heard of the existence of the instrument, referred to in this affidavit, until I was furnished with a copy of it a few days ago at the executive office. I refer to the affidavit of R. A. Alston, a written instrument executed by Col. Alston.

A few words in regard to another paper which appears on file in the executive office. I refer to the affidavit of R. A. Alston, in that instrument the terms of the contract, it is pretended, that I had made with the agent's were set forth by way of recital. The affidavit just mentioned, it is said, in substance that the instrument was drawn up in my name, and that I read it and stated that it contained a true record of the agreement; but that the execution of such a paper was Chapman's act, because I had already sufficiently protected the rights of Messrs. Alston and Garlington, by an entire contract between Col. Alston and myself. Gen. Garlington.

Alston and Garlington, by an entire contract between Col. Alston and myself. Gen. Garlington.

I never signed the paper, or in any way intended to give it to the executive branch. It was never made an office paper by me, but was left unsigned, and without any validity what-ever.

WEDNESDAY MORNING, MAY 30, 1877

THE COMING WHEAT CROP.

The St. Louis Republican says the wheat crops of Illinois, Missouri and Kansas "never looked more promising within the memory of man." Similar accounts come from every part of the northwest, portions of Ohio alone excepted. Of course much depends upon the harvest weather. If the prevailing dryness continues the crop of winter wheat will be enormous. Within a very short time all the states below the Ohio will begin to gather the crop, and Missouri and southern Illinois will soon follow.

The harvest weather last year and the year before in the northwestern states was very wet. It rained almost every day in the last half of June and during July, and raised millions of bushels of wheat in this country. To cap this, it will fall during August in Iowa and Minnesota—the home of the spring wheat—and ruined millions of bushels more. But the rainy season throughout the wheat belt this year has been April and May, and hence it is hardly likely that there will be much precipitation in June and July. By all accounts the bread wheat sown to winter wheat is very large and the yield promises to be large. The snows which fell upon it in March and the fore part of April did a world of good, and then the soaking rains of the last half of April and the first half of May have completed the job and the promise now is one of the largest and best crops of winter wheat ever harvested in America.

The crop of winter wheat is not itself sufficient to give the country cheap bread; for we will be called upon to supply the quantities that the western part of Europe has drawn from the countries that fall on either side of the Atlantic, see the "Laws of Civilization," which may be regarded as locking ordinary sagacity.

COLONEL JOHN H. MARTIN, the veteran editor of the Columbus Times, once trod the mimic stage in North Carolina. Some of the papers go so far as to say that he once played "The Lady of Lyons," but we don't know if he ever carried matters that far.

Some of the papers say that the "famous 'I' has exhausted all the prominent wobblies in that state outside Pennsylvania to the democrats next fall."

The new fashion slipper with a high heel to it is the cause of hundreds of boys leaving home and selling the rags among which they are.

All the newspaper in the South wish to be published on the first floor, but the papers do this sternly. That's all I can say.

The New Orleans Picayune says prominent wobblies in that state outside Pennsylvania to the democrats next fall.
